General Information

Overview

HPF Deficiency Notification is an automated process that will inform physicians of their HPF deficiencies.

How Will Physicians Be Notified

~Physicians or their designees will be notified of deficiencies weekly via email or text.

~No patient information will be sent in the alerts. Physicians must log into the hCare Clinician Portal to see actual deficiencies.

~The number of deficiencies in the alerts may vary from the actual deficiencies seen in hCare Clinician Portal due to processing times and cycles.

Email Alert Content

Subject: Physician Deficiency Alert

This email is to inform you that **PHYSICIAN, NAME** has incomplete medical records: **0 missing text deficiencies, 0 dictation deficiencies, and 4 signature deficiencies, and 0 of these are >30 days old.**
